Spotlight: Hands-On Learning

East Providence High School Career and Tech provides Work-based Learning Experiences

Work-based learning (WBL) activities are planned, structured learning experience that provides students with real-life or simulated work experiences where they can develop and apply academic, technical, and essential skills. Depending on the program and grade, students can participate in 40+ hours of the following WBL activities:

- Internship
- Apprenticeship
- Service-learning
- School-based enterprise
- Industry project

These experiences are often credit-bearing opportunities that provide students with rigorous opportunities to pursue career and industry-connected learning under the direction of their program instructor both during and outside of the traditional school day.

CYBERPATRIOT COMPETITION ROUND 1
10/23

Students Cooking for Students

The Culinary Program extends its service to Student Organizations...

With the tremendous success our Culinary students have had in preparing and serving meals to faculty through the Grab 'n Go lunch program and the recent Faculty Tailgate Party before the 10/8 home football game, Chefs Walker, McKillip and company have turned their sites on catering a variety of Townie events.

This month alone, we have booked reservations to serve:

- Townie Girls Soccer Banquet
- Townie Boys Soccer Banquet
- Round 1 of the Cyberpatriot Competition- for the Computer Science Program Students

WHAT IS CYBERPATRIOT?

CyberPatriot is the National Youth Cyber Education Program created by the Air Force Association to inspire K-12 students toward careers in cybersecurity or other science, technology, engineering, and mathematics (STEM) disciplines critical to our nation's future. At the core of the program is the National Youth Cyber Defense Competition, the nation's largest cyber defense competition that puts high school and middle school students in charge of securing virtual networks.

"The will to win is important, but the will to prepare is vital."
Joe Paterno
